RE: RhinoShield Product/Services

To Whom It May Concern:

This letter is written on behalf of my wife, Irene S. Moore, and myself regarding the application of RhinoShield to our home.

We had the pleasure of entering into a contractual relationship with Georgia Coatings, Inc./RhinoShield for application of the RhinoShield product to our home.

All personnel with whom we have come into contact during this project have been pleasant, professional, and thorough throughout. They explained their product, and all of the steps necessary in applying the RhinoShield to our home (e.g., maintenance, preparation, and application).

They honored our color selections and completed the project on a timely basis. All costs were explained up front. While additional maintenance repair costs were incurred that were not a part of the original contract, the additional maintenance costs were reasonable given the maintenance required to restore our home to the condition that existed when we first purchased our home almost 31 years ago. The maintenance work was done by a crew under the supervision of Mr. Carlos Cachon, and we are very pleased with their final work product.

Should you have any questions and or comments, please do not hesitate to contact us.

Sincerely,

GARLAND C. MOORE, Esq.

24 May 2020

Dear Roxanne,

On 29 April 2020 I contacted Georgia Coatings Inc for a refresh project using Rhino Shield Ceramic Coatings to update the wood surfaces of the property identified above. Before application of the Rhino Shield product could be completed there were several areas of the structure that required repair or complete replacement. The project began May 14th and was completed by May 19th with minimal disruption. The Rhino Shield product is indeed unique and I could not have imagined a better outcome: the house looks completely different and has received considerable attention from the neighborhood.

While I feel that the Rhino Shield product is superior to anything on the market, the key to the success of the project was my crew leader Carlos Chacón. From the commencement of the project Carlos was very good at explaining the details of each repair required as well as the methods he planned to implement in correcting the issues for a long term repair.

The timing and execution of each project step was expertly planned and executed by Carlos and his team resulting in minimal "over spray" and impeccable cleanup of the worksite. His attention to detail and desire for perfection are indeed admirable and what I expect from a contractor. Suffice it to say that Georgia Coatings has a true asset with Mr. Chacón as a crew leader and I highly recommend his services. Thank you for a job well done.

Sincerely,

A handwritten signature in black ink, appearing to read 'John J. Perron', with a stylized flourish at the end.

Open Letter of Reference

Re: work performed by Carlos Chacom & crew

We contracted with Georgia Coatings, Inc., Lawrenceville, GA to have our 25-year-old home repainted with the Rhino Shield product. Carlos Chacom was in charge of getting our house prepared for painting and then painted. The job was fairly complex given the detailed trim work required around the brick, stucco, wood, concrete and stone surfaces. They even refinished a large wrap-around porch and exterior deck that was not really considered in the original scope. The unusually wet weather also added to the complexity of the job, not to mention the shrubbery and landscaping and blueberry bushes that they had to take care not to damage.

Carlos was masterful in not only orchestrating the work flow to get the job done on time in unpredictable rainy weather all week, but he identified and replaced all rotting fascia boards and dormer trim with the skill of a master carpenter, including hidden rot behind the gutters. He also resurfaced and finished a mahogany front door with side and overhead cut-glass windows that we thought might not be repairable. Incredible!

We could not be more pleased with the finished product and the incredible work ethic that we found in Carlos's team. From sun up to sun down, they worked around mother nature, who threw more than enough curve balls at them all week. Over the years, we have used various contractors for painting and repair work on our house. We have been generally pleased with those other contractors. Now we have a new standard by which to measure quality. Carlos & crew were the best, by far! He will be our go-to resource from now on for our home repair and improvement needs!

To Whom IT may CONCERN,

I'm WRITING THIS LETTER OF RECOMMATION FOR CARLOS CHACON. WHILE CARLOS WAS WORKING ON MY HOUSE I SAW WHAT A HARD WORKING PERSON HE IS, CARLOS IS VERY KNOWLEDGEABLE IN CONSTRUCTION, ROOFING, PAINTING. CARLOS TOOK SHORT LUNCH BREAKS AND WENT BACK TO WORK. IF I WAS AN EMPLOYER AND NEED TO HIRE SOMEONE I WOULD NOT HESITATE TO HIRE CARLOS ON THE SPOT. CARLOS HAS KNOWLEDGE LEADERSHIP AND A VERY STRONG WORK ETHIC. WHICH IS HARD TO FIND TODAY. AFTER RETIRING FROM THE US ARMY I KNOW THAT QUALITIES IN CARLOS IS REALLY HARD TO FIND.

~~Thanks~~
Robert Beigan
